KUPHANDA

Your school library, online

How to use this app

Browse the catalogue for Forms 1-4, subscribe for full access, and download the documents you need for reading offline. Your bookmarks, notes and reading progress stay on this phone.

1. Find a document

Open Library and filter by form, subject or document type. Past papers, marking schemes, notes and study guides share one catalogue. Free and premium documents are labelled clearly.

2. Unlock a document

Free papers open immediately. Premium papers need a weekly, monthly or term pass, a school licence, or a single purchase. Prices are shown in MWK and paid through PayChangu.

3. Download for offline

On a document you can access, tap Download. The file is checked and stored on the phone. When the library publishes a newer version, the app offers an update and keeps the old copy until the new download succeeds.

4. Read anywhere

Turn pages, add bookmarks and write notes. Progress is saved as you read and syncs when you are back online.

Managing access and downloads

Free and premium

Free papers stay open to everyone. Premium papers require an active subscription, a single-document purchase or a school licence. Your current access is shown under Subscription.

Paying with PayChangu

Choose a plan or buy one paper, then finish the payment in the browser with mobile money or a card. Return to the app and tap "I have paid" or reopen Subscription to confirm it.
Receipts and references are listed under Payment history.

Downloads and updates

Downloaded files appear in My documents with their version. When a newer version is published, download the update from the document screen. Remove a download to free up space; your notes and progress are kept.
If a pass expires or is revoked, the next sync removes files that are no longer covered and asks you to subscribe again.

Personal files

Use My documents > Import for a PDF you own that is not in the catalogue. Give it a title, subject, form and type.

Privacy and copyright

Only library-supplied papers are published to everyone. Imported files stay on your phone. Past papers and textbooks remain the property of their publishers and MANEB.
